Texas A&M AgriLife Extension Service Mission:

**Improving the lives of people,
businesses, and communities
across Texas and beyond through
high-quality, relevant education.**

Meet Our Trainers:

Dr. Don L. Renchie

Agricultural and Environmental Safety Unit, an Extension Specialist and Coordinator for the Pesticide Safety Education Training Program.

A 5th generation native of Bryan, Texas, Dr. Don Renchie grew up in the Brazos County 4-H programs. He holds a BS in Animal Science from Prairie View A&M University and a MS and Ph.D. in Ag. Ed. from Texas A&M University. Don worked in the agricultural chemical supply industry and for the Texas Department of Agriculture.

Since 1993, Don has been a member of the Texas Agricultural and Environmental Safety Unit. He is the Program Leader of the Agricultural and Environmental Safety Unit, an Extension Specialist and Coordinator for the Pesticide Safety Education Training Program.

Dr. Mark Matocha has been with the Agricultural and Environmental Safety Unit since 2001. He holds a Ph.D. from Texas A&M in Agronomy, specializing in weed science. He has more than 10 years experience in the pest management field specializing in herbicides and weed control. He has conducted weed control research in turf-grass, pasture, peanut, corn, sorghum, cotton, vegetables, citrus, and sugarcane. He has authored several Extension publications and conducts educational meetings dealing with pesticide safety and education, agronomy, and weed control.

Dr. Mark Matocha

Mark also serves as the IR-4 Liaison for Texas - coordinating a multi-state minor use pesticide advisory committee which is responsible for identifying and prioritizing minor use pesticide needs for Texas and surrounding states. Mark has been a licensed Texas Department of Agriculture Non-Commercial Pesticide Applicator since 1997.

Dr. Janis Reed

Dr. Janis Reed earned a BS, an MS and a Ph.D. all from Texas A&M University in Entomology. She joined the Agricultural and Environmental Safety unit in 2013. Prior to working for Texas A&M AgriLife Extension Service, she was the technical director for a large pest management company where her work was focused on applicator training and safety. During her time in the industry, Janis helped to develop protocols to control termites, bed bugs, tawny crazy ants, argentine ants, ghost ants, fabric pests, and others. She field tested new and experimental use pesticides while in the review process with the EPA and selected pesticide products for use. Her research and specialization focus is on urban pest ants, bait preferences, and general pest management.

Janis is an active member of the Entomological Society of America, a Board Certified Entomologist, and has been a licensed pesticide applicator since 2000 in pest control, termite control, lawn and ornamental pest control, and weed control.

General Standards Training

This training will satisfy the Structural Pest Control Service's requirements for certification of Commercial/Non-commercial and Technician licensing of pesticide applicators (8 hours of training). This is the General training, and not a category training. In addition, while the Texas Department of Agriculture does not require training as a condition of licensure, this class will prepare license applicants for the TDA General examination. Please notify the affected employees within your organization.

Please note: This training can be used to satisfy the 8 hour recertification training requirement for Technicians.

Check our website for maps to the locations

<http://agrillife.org/aes/maps-to-training-locations/>

Training classes with less than 10 attendees may be canceled.

Listed to the right are the locations and dates for the Structural Pest Applicator Training (commercial, non-commercial and technician). The class is 8:00 a.m. to 5:00 p.m. with an hour lunch (lunch is not provided). Deadline for registration is one week prior to training date. Registration is \$150.00 per person (**Fee includes study manual General Standards - B-5073, and Structural Laws & Regs - B-6135**). Register online at <https://agriliferegister.tamu.edu>, or call (979) 845-2604.

Please contact the Structural Pest Control Service at (512) 305-8250 or (866) 918-4481 to register for the computer-based testing program for structural pesticide applicators. Applicants must be pre-qualified by TDA prior to registering to take examinations with PSI Services.

For best test results, order your **additional category manuals** in advance. Please make separate payment if ordering additional manuals. To order manuals over the phone, call Karen at 979-845-1099.

3 Day Apprentice Training

You can now provide your technician apprentices and other employees with an opportunity to receive 20 hours of in-depth, hands-on training relating to the 20 hours of “Classroom” training required by the Texas Structural Pest Control Service, effective September 1, 2000.

This program will exceed the minimum 20 hours required to satisfy the apprenticeship classroom training as established by Section 7.133 (h) (1) of the Texas Structural Pest Control Act.

In addition, untrained personnel from local and state governments, industry, and institutions (such as school districts) will benefit greatly from participation in this training program.

Prepare your pest management personnel to be successful professionals, register today! Register online at <https://agriliferegister.tamu.edu/pesticide>, or call (979) 845-2604. If you have additional questions, contact Denise King at (979) 845-3849.

Location: The Training will be conducted at Texas A&M University's Riverside Training complex in Bryan, Texas. A map to the location will be provided upon registration.

Cost per participant: (\$350.00 including study materials, B-6135 Laws and Regulations, and Apprentice manual). Lunch will be served each day. Participants can leave the site and get lunch on their own but there will not be a price reduction for this.

The Available Dates for 2015 are:

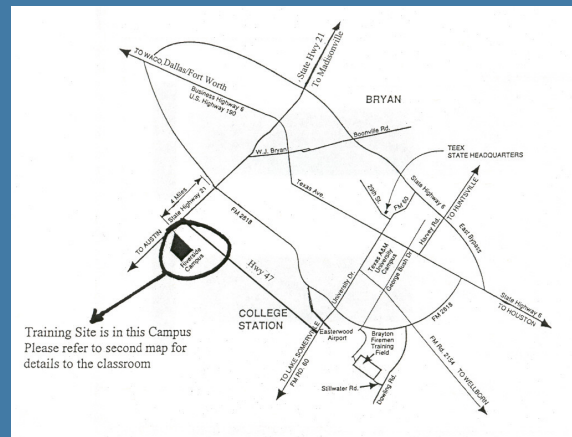

February 24-26, 2015

May 5-7, 2015

August 11-13, 2015

November 4-6, 2015

Bryan/College Station location only

Online Training Only

To register for these courses, go to <https://agriliferegister.tamu.edu/pesticide>. Once you have registered for the course, Texas A&M AgriLife Extension Conference Services will email you a confirmation of your registration, a receipt and the course enrollment key. For questions regarding the course Lawn & Ornamental training, please contact Dr. Mark A. Matocha at 979-845-1099 or by email at mmatocha@ag.tamu.edu, for Pest Category or Termite Category, please contact Dr. Janis Reed at 979-845-1099 or by email at jjreed@ag.tamu.edu. The course(s) will be delivered through The Extension Online Campus located at <http://campus.extension.org>. Students will need to create an account at <http://campus.extension.org/login/signup.php> before class begins.

Please contact the Texas Department of Agriculture Structural Pest Control Service at (512) 305-8250 or (866) 918-4481 to begin your exam registration. Applicants must be pre-qualified by TDA prior to registering to take examinations with PSI Services.

Lawn & Ornamental Structural Category Training

Lawn and ornamental pest control represents a very large portion of urban pesticide use. As urban areas continue to expand and homeowners continue to desire attractive lawns and landscapes, the use of pesticides to control plant pests has continued to grow. The use of pesticides to control insects and diseases in home and other landscapes is a serious business, one that requires a wide knowledge of the pests as well as some understanding of pesticides and their proper use.

This 8 hour course is designed to satisfy the SPCS Apprentice Training Requirements as specified in Section 7.133 (h) (2) “8 hours of classroom training in each category in which the apprentice is to provide pest control services”. The \$100.00 course can also be taken by other SPCS applicators to increase their knowledge in the subject area.

Pest Category Training

This 8 hour course is designed to satisfy the Apprentice Training Requirements as specified in Section 7.133 (h) (2) “8 hours of classroom training in each category in which the Apprentice is to provide pest control services”. **In addition**, the course can be used to prepare for the Structural Pest Control Pest category examination.

The **\$130** course includes the required category training manual (B-5074), **a \$35 value**, and online instruction. The manual will be mailed separately, please call Karen Coleman at 979-845-1099 with a physical shipping address when you register for this course.

Termite Category Training

This newly updated 8 hour course is designed to satisfy the Apprentice Training Requirements as specified in Section 7.133 (h) (2) “8 hours of classroom training in each category in which the Apprentice is to provide pest control services”. **In addition**, the course can be used to prepare for the Structural Pest Control Termite category examination.

The **\$150** course includes the required category training manual (B-5075), **a \$25 value**, and online instruction. The manual will be mailed separately, please call Karen Coleman at 979-845-1099 with a physical shipping address when you register for this course.

NEW!!

Online Apprenticeship Training

You can now provide your technician apprentices and other employees with an opportunity to receive 20 hours of in-depth, online training to fulfill the 20 hours of “classroom” training required by the Texas Structural Pest Control Service, effective September 1, 2000, as established by Section 7.133 (h) (1) of the Texas Structural Pest Control Act. In addition, untrained personnel from local and state governments, industry, and institutions (such as school districts) will benefit greatly from participation in this training program.

Apprentice—According to Structural Pest Control Laws and Regulations, an apprentice is a person, who is registered by a business or noncommercial entity to train for a technician license, has not passed the technician examination, and who performs pest control services under the direct supervision of a licensed technician or a certified applicator. An apprentice may work only for the business or noncommercial entity for which they are registered.

TDA RULE §7.133 Technician License Requirements (abridged)

- (a) An apprentice is a beginning employee, whose training program is the responsibility of the responsible certified applicator and who may be trained by and work under the direct supervision of licensed applicators and technicians.
 - (b) An apprentice must be at least 16 years of age.
 - (c) An apprentice must be able to demonstrate proficiency in reading U.S. Environmental Protection Agency approved pesticide labels and warnings.
 - (d) An apprentice must submit an application for technician license within ten (10) days of beginning employment.
 - (g) An apprentice card will be issued by the department for one (1) year from the date employment began when all of the above requirements are met and processed.
 - (h) Apprentices must not perform any pest control work without the physical presence of a licensed technician or a certified applicator...
- (4) an apprentice may maintain an apprentice card for a maximum of twelve (12) months. If an apprentice has not passed the requirements to become a licensed technician in the twelve (12) month period, the individual may be re-registered as an apprentice and complete all training requirements for an apprentice. Previous training credit may not be applied to this requirement.

Prepare your pest management personnel to be successful professionals, register today! **To register for this NEW course, call our office at 979-845-1099. The course is \$395 per participant and includes manuals B-5073 General Standards and B-6135 Structural Laws and Regulations (free shipping).** Once you have registered for the course, Texas A&M AgriLife Extension Conference Services will email you a confirmation of your registration, a receipt and the course enrollment key. The course(s) will be delivered through The Extension Online Campus located at <http://campus.extension.org>. Students will need to create an account at <http://campus.extension.org/login/signup.php> before class begins.

For questions regarding the course please contact Dr. Janis Reed at 979-845-1099 or by email at jjreed@ag.tamu.edu.

How Do I Get CEUs?

CEUs are a legal requirement for keeping your pesticide license. You can always contact your local County Extension agent for CEU opportunities, but the Texas Department of Agriculture also has a website where you can search for CEU providers across the state, or in your specific area.

You can find the CEU search at: <http://ceusearch.texasagriculture.gov/>

Pesticide CEU Course Search

The Texas Department of Agriculture has approved recertification courses for pesticide applicators who need continuing education units (CEUs).

This list now includes both agricultural and structural CEUs.

Please check with the course sponsor to be sure the course meets your CEU needs.
