# 3 Day Apprentice Training

You can now provide your technician apprentices and other employees with an opportunity to receive 20 hours of in-depth, hands-on training relating to the 20 hours of “Classroom” training required by the Texas Structural Pest Control Service, effective September 1, 2000.

This program will exceed the minimum 20 hours required to satisfy the apprenticeship classroom training as established by Rule §7.132 (i) (1) of the Texas Structural Pest Control Act.

In addition, untrained personnel from local and state governments, industry, and institutions (such as school districts) will benefit greatly from participation in this training program.

Prepare your pest management personnel to be successful professionals, register today! Register online at: "<https://agrillife.org/aes/apprentice-training-description/>" or call (979) 845-3849.

## Registration

The Training will be conducted at Texas A&M University's Rellis Campus in Bryan, Texas. A map to the location will be provided upon registration.

## Equipment

(\$400.00 including study materials, AES-6135 Laws and Regulations, and Apprentice manual). Breakfast and lunch will be served each day. Participants can leave the site and get food on their own but there will not be a price reduction for this.

## The Available Dates for 2023 are:

**April 25-27, 2023**

**June 27-29, 2023**

**August 15-17, 2023**

**October 24-26, 2023**

**Bryan/College Station location only**

# General Standards Training

The Technician Training Course is one of the prerequisites for an Apprentice to take the Technician examination [Section 7.132 (m)(2)]. As required by Section 7.133 (c) the Technician Training Course will also satisfy the Structural Pest Control Service's requirement for the re-certification of Commercial/Noncommercial Technician license (condition of renewal, 8 hours of verifiable training). An exercise including an examination will be provided to course participants which must be completed and submitted within 5 business days before a certificate of completion will be distributed. You will need to document attendance on your Verifiable Training Record and attach the completion certificate. **\*Please call our office at (979) 845-3849 to let us know at the time of registration if you are a technician needing a certificate for renewal credits.**

This is the Technician Training Course, which covers general standards and not a category training. In addition, while the Texas Department of Agriculture does not require training as a condition of obtaining a Certified Applicator license, this class will prepare license applicants for the TDA General Standards examination. **To order additional category manuals please contact our office at (979) 845-3849.**

The class begins at 8:00 a.m. and ends at 5:00 p.m. with an hour for lunch (lunch is not provided). The deadline for registration is one week prior to the training date. Registration is \$150.00 per person (**Hgg" lpenmf gu'twaf { 'b cpwcnI gpgt cnUwcpf ctf u/'CGU' 7295.'bpf 'Utwewwt cnNcy u( 'Tgi u/'CGU/8357).** Register online at: "<https://agrilife.org/aes/general-standards-training-description/>", or call (979) 845-3849.

To take Technician examinations, please email a Technician Exam Application (SPT-420) and a copy of your Technician Training Course certificate to: "[eligibility@texasagriculture.gov](mailto:eligibility@texasagriculture.gov)" to be eligible to take computer-based Technician examinations with PSI.

Please contact the Structural Pest Control Service at (512) 463-3207 or (866) 918-4481 if you have any questions. Applicants must be pre-qualified by TDA prior to registering to take examinations with PSI.

# Online Private Applicator Training

The Texas Department of Agriculture lists step one to obtaining a Private Applicator License as "Attend a Private Pesticide Applicator training session FIRST". You can attend a Private Applicator training in person through your local County Extension Office, or you can attend the training in the privacy of your own home with this \$100.00 online course.

Texas Department of Agriculture defines a private pesticide applicator as "someone who uses or supervises the use of restricted-use or state-limited-use pesticides or regulated herbicides to produce an agricultural commodity on:

Personally owned property;

Rented property;

Property owned by his or her employer;

Property under his or her general control; or

The property of another person if applied without compensation, other than the trading of personal services between producers of agricultural commodities."

An agricultural commodity is a plant or animal grown for sale, lease, barter, feed, or human consumption and animals raised for farm or ranch work. No license is required to apply general-use pesticides to produce agricultural commodities.

**Please Note:** AES-1648 - Using Pesticides Private Applicator Manual and AES-5056 Texas Department of Agriculture Pesticide Laws and Regulations will be shipped via FedEx Ground within 2-3 business days of registration as part of the price of the training after you register for this course. There will not be a discount on the course if you already have the books.

To register for this course, go to <https://agrilifelearn.tamu.edu/s/product/texas-private-pesticide-applicator-training/01t4x000002ciNUAAY>. For questions regarding the course, please contact Dr. Mark Matocha at (979) 845-3849 or by email at [mmatocha@ag.tamu.edu](mailto:mmatocha@ag.tamu.edu).

Please contact the Texas Department of Agriculture at (512) 305- 8250 or (866) 918-4481 to begin your exam registration. Applicants must be pre-qualified by TDA prior to registering to take examinations with PSI Services.

## Pest Category Training

This 8 hour course is designed to satisfy the Apprentice Training Requirements as specified in Rule §7.132 (i) (2) “8 hours of classroom training in each category in which the Apprentice is to provide pest control services”. **Kp'cf f klqp**, the course can be used to prepare for the Structural Pest Control Pest category examination.

The \$372 course includes the required category training manual (AES-5074), c'~~857~~'xcnwg, and online instruction. The manual will be mailed separately.

## Termite Category Training

This newly updated 8 hour course is designed to satisfy the Apprentice Training Requirements as specified in Rule §7.132 (i) (2) “8 hours of classroom training in each category in which the Apprentice is to provide pest control services”. **Kp'cf f klqp**, the course can be used to prepare for the Structural Pest Control Termite category examination.

The \$372 course includes the required category training manual (AES-5075), c'~~852~~'xcnwg, and online instruction. The manual will be mailed separately.

## Public Health Pest Control (Vector) Training

This 8 hour online course is a blended course designed for state, county and local government noncommercial vector control technicians, and seasonal employees of the vector control agencies. The course provides certified training that will prepare them for the Public Health Pest Control category exam with the Texas Department of Agriculture.

The \$382 course includes the required category training manual (AES-5071), c'~~867~~'xcnwg, and online instruction. The manual will be mailed separately.

## Weed Category Training

This 8 hour course is designed to satisfy the Apprentice Training Requirements as specified in Rule §7.132 (i) (2) “8 hours of classroom training in each category in which the Apprentice is to provide pest control services”. **Kp'bf f klqp**, the course can be used to prepare for the Structural Pest Control Weed category examination.

The **\$372** course includes the required category training manual (AES-5066), **c'857'xcnwg**, and online instruction. The manual will be mailed separately.

## Lawn & Ornamental Structural Category Training

Lawn and ornamental pest control represents a very large portion of urban pesticide use. As urban areas continue to expand and homeowners continue to desire attractive lawns and landscapes, the use of pesticides to control plant pests has continued to grow. The use of pesticides to control insects and diseases in home and other landscapes is a serious business, one that requires a wide knowledge of the pests as well as some understanding of pesticides and their proper use. This 8 hour course is designed to satisfy the SPCS Apprentice Training Requirements as specified in Rule §7.132 (i) (2) “8 hours of classroom training in each category in which the apprentice is to provide pest control services”.

The **\$150** course includes the required category training manual (AES-5066), **a \$35 value**, and online instruction. This course can also be taken by other SPCS applicators to increase their knowledge in the subject area.

**Crrtgvleg** – According to Structural Pest Control Laws and Regulations, an apprentice is a person, who is **registered** by a business or noncommercial entity to train for a technician license, has not passed the technician examination, and who performs pest control services under the direct supervision of a licensed technician or a certified applicator. An apprentice may work only for the business or noncom-mercial entity for which they are registered.

## TDA RULE §7.132 Requirements for Apprentice Registration

- (a) An apprentice is a beginning employee, whose training program is the responsibility of the responsible certified applicator and who may be trained by and work under the direct supervision of licensed applicators and technicians.
  - (b) An apprentice must be at least 16 years of age.
  - (c) An apprentice must be able to demonstrate proficiency in reading U.S. Environmental Protection Agency approved pesticide labels and warnings.
  - (d) An apprentice must submit an application for technician license within ten (10) days of beginning employment.
  - (g) An apprentice card will be issued by the department for one (1) year from the date employment began when all of the above requirements are met and processed.
  - (h) Apprentices must not perform any pest control work without the physical presence of a licensed technician or a certified applicator...
- (5) an apprentice may maintain an apprentice card for a maximum of twelve (12) months. If an apprentice has not passed the requirements to become a licensed technician in the twelve (12) month period, the individual may be re-registered as an apprentice and complete all training requirements for an apprentice. Previous training credit may not be applied to this requirement.

Prepare your pest management personnel to be successful professionals, register today!

# Online CEU Trainings

## **Pesticide Online "Drift Minimization" CEU**

The Texas Pesticide Agricultural CEU Online course is a web-based course for Texas Department of Agriculture Pesticide Applicators seeking TDA continuing education units (CEUs). This course provides one (1) Drift Minimization CEU. Students who complete the course will gain knowledge of the factors affecting pesticide drift.

The \$15 fee includes 1 Drift Minimization CEU.

## **Pesticide Online "Herbicide - Mode of Action" CEU**

Those who participate in this course will learn about herbicides, different modes of action, and different herbicide families. Pesticide applicators looking to receive 1 hour of credit for TDA pesticide general CEU can be earned with this course.

The \$15 fee includes 1 General CEU.

## **Pesticide Online "Aerial Applicator" CEU**

This online course provides two CEUs to TDA agricultural applicators. Aerial applicators will receive the required credits for drift minimization and safety addressing human factors. All TDA applicators who complete the course will gain knowledge of spray drift minimization as well as pesticide safety.

The \$30 fee includes 1 Drift Minimization CEU and 1 Safety (Human Factor).

## **Pesticide Online "Picolinic Acid Chemistry Training" CEU**

This Picolinic Acid Chemistry Training covers the application requirements for the use of Invora™ Herbicide for brush and weed management on rangeland sites in Arizona, New Mexico, Oklahoma, and Texas.

Prior to applying Invora™ Herbicide on rangeland, applicators must complete picolinic acid chemistry training every two years.

The \$15 fee includes 1 Laws and Regulations CEU.

As an education agency, the Texas A&M AgriLife Extension Service may have programs that meet your certification training and continuing education needs, particularly for agricultural applicators. Check your county government telephone listings to find the local Extension county office. To learn of other approved training organizations, contact the agency through which you are licensed.

## **Dwyer Hand-Held Wind Meter Information**

**Get your's NOW for ONLY \$30.00!**

**Regular Retail Price \$49.95.**

### **Product Information:**

#### **Low-cost Hand-Held Wind Meter for quick estimates of wind speeds**

This hand-held wind speed meter reads low range winds from 2-10 mph and high range from 4-66 mph. The floating white ball on the hand-held meter moves up and down as wind speeds change. Face the back of the hand-held meter towards the wind and the white ball indicates the wind speed. For high range readings hold your finger over the red release valve on top of the meter. USA made.

### **Product Specs:**

**Dimensions:** 0.62"x6.75"x0.53"

**Weight:** 0.7 oz.

**Wind speed and accuracy:** 2 to 66 mph

**Temperature and accuracy:** Not applicable

**Protective carrying case:** Yes

**Replacement parts:** Yes

**Easy to use! No battery! No replacement parts!**

## Dwyer© Hand-held Wind Meter Order Form

To order, complete the section below. Mail payment and this form to: **Texas A&M AgriLife Extension Service, P.O. Drawer FS, College Station, TX 77841, or Fax to (979) 845-6251.** For additional information, contact us at 979-845-1099 or 979-845-3849. Please print clearly.
