**Mr. Jacob (Jake)
Wightman**

Mr. Jacob (Jake) Wightman is an Extension Program Specialist with the Agricultural and Environmental Safety Unit of the Texas A&M AgriLife Extension Service. As a Pesticide Program Specialist he provides programs for Texas pesticide applicators in the structural pest control industry as well as agriculture. These programs include apprentice/technician training seminars as well as CEUs and training in structural pest license categories.

Jake’s background is in horticultural science, with interests in integrated pest management, community food systems, and agroecology. Jake has professional experience in the Texas structural pest control industry as well as with agricultural and landscape pesticide applications. He has a degree in Agroecology & Sustainable Food Systems- Urban Horticulture from North Carolina State University (B.S., 2022), and is currently working on a Masters degree in Agricultural Education with Texas Tech University.

3 Day Apprenticeship Training

You can now provide your technician apprentices and other employees with an opportunity to receive 20 hours of in-depth, hands-on training relating to the 20 hours of “Classroom” training required by the Texas Structural Pest Control Service, effective September 1, 2000.

This program will exceed the minimum 20 hours required to satisfy the apprenticeship classroom training as established by Rule §7.132 (i) (1) of the Texas Structural Pest Control Act.

In addition, untrained personnel from local and state governments, industry, and institutions (such as school districts) will benefit greatly from participation in this training program.

Prepare your pest management personnel to be successful professionals, register today! Register online at: "<https://agrilife.org/aes/apprentice-training-description/>" or call (979) 845-3849.

Location:

The Training will be conducted at Texas A&M University’s Rellis Campus in Bryan, Texas. A map to the location will be provided upon registration.

Cost per Participant:

(\$400.00 including study materials, AES-6135 Laws and Regulations, and Apprentice manual). Breakfast and lunch will be served each day. Participants can leave the site and get food on their own but there will not be a price reduction for this.

2025 Training Dates:

*** March 18-20, 2025**

(Optional Pest Category to follow March 20-21, 2025 for an additional \$150.00)

*** June 24-26, 2025**

(Optional Pest Category to follow June 26-27, 2025 for an additional \$150.00)

Bryan/College Station location only

General Standards Training

The Technician Training Course is one of the prerequisites for an Apprentice to take the Technician examination [Section 7.132 (m)(2)]. As required by Section 7.133 (c) the Technician Training Course will also satisfy the Structural Pest Control Service's requirement for the re-certification of Commercial/Noncommercial Technician license (condition of renewal, 8 hours of verifiable training). An exercise including an examination will be provided to course participants which must be completed and submitted within 5 business days before a certificate of completion will be distributed. You will need to document attendance on your Verifiable Training Record and attach the completion certificate. ***Please call our office at (979) 845-3849 to let us know at the time of registration if you are a technician needing a certificate for renewal credits.**

Vt clpłpi 'ėncugr'y ksj 'ıguı'
vj cp'5ŧwgpf ggu'b c{ 'đg'
ecpegıf 0

This is the Technician Training Course, which covers general standards and not a category training. In addition, while the Texas Department of Agriculture does not require training as a condition of obtaining a Certified Applicator license, this class will prepare license applicants for the TDA General Standards examination. **To order additional category manuals please contact our office at (979) 845-3849.**

The class begins at 8:00 a.m. and ends at 5:00 p.m. with an hour for lunch (lunch is not provided). The deadline for registration is one week prior to the training date. Registration is \$150.00 per person (**Hgg'' lpenf gu'twrf { 'b cpwcnI gpgt cıUwcpf ct f u/'CGU'' 7295.'cpf 'Ut wewt cıNcy u('Tgi u/'CGU'8357).** Register online at: "<https://agrilife.org/aes/general-standards-training-description/>", or call (979) 845-3849.

To take Technician examinations, please email a Technician Exam Application (SPT-420) and a copy of your Technician Training Course certificate to: "eligibility@texasagriculture.gov" to be eligible to take computer-based Technician examinations with PSI.

Please contact the Structural Pest Control Service at (512) 463-3207 or (866) 918-4481 if you have any questions. Applicants must be pre-qualified by TDA prior to registering to take examinations with PSI.

Pest Category Training

This 8-hour course is designed to satisfy the Apprentice Training Requirements as specified in Rule §7.132 (i) (2) “8 hours of classroom training in each category in which the Apprentice is to provide pest control services”. In addition, the course can be used to prepare for the Structural Pest Control Pest category examination.

This \$150 course includes the required category training manual (AES-5074), a \$35 value, and instruction from experienced Texas A&M AgriLife Extension Service trainer, Mr. Jacob (Jake) Wightman.

This course will cover common structural invertebrate and vertebrate pests of the United States, particularly the state of Texas. Invertebrate pests are classified as insects and other arthropods, while vertebrate pests cover rodents, reptiles, opossums, etc.

To register, please call our office at (979)845-3849.

The Available Dates for 2025 are:

Plano - 17360 Coit Rd:

*March 12, 2025 *October 1, 2025

Online Private Applicator Training

The Texas Department of Agriculture lists step one to obtaining a Private Applicator License as "Attend a Private Pesticide Applicator training session FIRST". You can attend a Private Applicator training in person through your local County Extension Office, or you can attend the training in the privacy of your own home with this \$100.00 online course.

Texas Department of Agriculture defines a private pesticide applicator as "someone who uses or supervises the use of restricted-use or state-limited-use pesticides or regulated herbicides to produce an agricultural commodity on:

Personally owned property;

Rented property;

Property owned by his or her employer;

Property under his or her general control; or

The property of another person if applied without compensation, other than the trading of personal services between producers of agricultural commodities."

An agricultural commodity is a plant or animal grown for sale, lease, barter, feed, or human consumption and animals raised for farm or ranch work. No license is required to apply general-use pesticides to produce agricultural commodities.

Please Note: AES-1648 - Using Pesticides Private Applicator Manual and AES-5056 Texas Department of Agriculture Pesticide Laws and Regulations will be shipped via FedEx Ground within 2-3 business days of registration as part of the price of the training after you register for this course. There will not be a discount on the course if you already have the books.

To register for this course, go to <https://agrillifelearn.tamu.edu/s/product/texas-private-pesticide-applicator-training/01t4x000002ciNUAAY>. For questions regarding the course, please contact Dr. Mark Matocha at (979) 845-3849 or by email at mmatocha@ag.tamu.edu.

Please contact the Texas Department of Agriculture at (512) 305- 8250 or (866) 918-4481 to begin your exam registration. Applicants must be pre-qualified by TDA prior to registering to take examinations with PSI Services.

Weed Category Training

This 8 hour course is designed to satisfy the Apprentice Training Requirements as specified in Rule §7.132 (i) (2) “8 hours of classroom training in each category in which the Apprentice is to provide pest control services”. **Kp'bf f klkp**, the course can be used to prepare for the Structural Pest Control Weed category examination.

The **\$372** course includes the required category training manual (AES-5066), **c'857'xcnwg**, and online instruction. The manual will be mailed separately.

Lawn & Ornamental Structural Category Training

Lawn and ornamental pest control represents a very large portion of urban pesticide use. As urban areas continue to expand and homeowners continue to desire attractive lawns and landscapes, the use of pesticides to control plant pests has continued to grow. The use of pesticides to control insects and diseases in home and other landscapes is a serious business, one that requires a wide knowledge of the pests as well as some understanding of pesticides and their proper use. This 8 hour course is designed to satisfy the SPCS Apprentice Training Requirements as specified in Rule §7.132 (i) (2) “8 hours of classroom training in each category in which the apprentice is to provide pest control services”.

The **\$150** course includes the required category training manual (AES-5066), **a \$35 value**, and online instruction. This course can also be taken by other SPCS applicators to increase their knowledge in the subject area.

Online CEU Trainings

Pesticide Online "Drift Minimization" CEU

The Texas Pesticide Agricultural CEU Online course is a web-based course for Texas Department of Agriculture Pesticide Applicators seeking TDA continuing education units (CEUs). This course provides one (1) Drift Minimization CEU. Students who complete the course will gain knowledge of the factors affecting pesticide drift.

The \$15 fee includes 1 Drift Minimization CEU.

Pesticide Online "Herbicide - Mode of Action" CEU

Those who participate in this course will learn about herbicides, different modes of action, and different herbicide families. Pesticide applicators looking to receive 1 hour of credit for TDA pesticide general CEU can be earned with this course.

The \$15 fee includes 1 General CEU.

Pesticide Online "Aerial Applicator" CEU

This online course provides two CEUs to TDA agricultural applicators. Aerial applicators will receive the required credits for drift minimization and safety addressing human factors. All TDA applicators who complete the course will gain knowledge of spray drift minimization as well as pesticide safety.

The \$30 fee includes 1 Drift Minimization CEU and 1 Safety (Human Factor).

Pesticide Online "Picolinic Acid Chemistry Training" CEU

This Picolinic Acid Chemistry Training covers the application requirements for the use of Invora™ Herbicide for brush and weed management on rangeland sites in Arizona, New Mexico, Oklahoma, and Texas.

Prior to applying Invora™ Herbicide on rangeland, applicators must complete picolinic acid chemistry training every two years.

The \$15 fee includes 1 Laws and Regulations CEU.

Dwyer Hand-Held Wind Meter Information

Get your's NOW for ONLY \$30.00!

Regular Retail Price \$49.95.

Product Information:

Low-cost Hand-Held Wind Meter for quick estimates of wind speeds

This hand-held wind speed meter reads low range winds from 2-10 mph and high range from 4-66 mph. The floating white ball on the hand-held meter moves up and down as wind speeds change. Face the back of the hand-held meter towards the wind and the white ball indicates the wind speed. For high range readings hold your finger over the red release valve on top of the meter. USA made.

Product Specs:

Dimensions: 0.62"x6.75"x0.53"

Weight: 0.7 oz.

Wind speed and accuracy: 2 to 66 mph

Temperature and accuracy: Not applicable

Protective carrying case: Yes

Replacement parts: Yes

Easy to use! No battery! No replacement parts!
